JOURNEY THROUGH NATURE!!

Our Excursions 10-hour Excursion

(€. 100,00 per Person)

Departure from the hotel at 9am;
Transfer to Mandanici via SP25 road.
Breakfast with the famous Granita Siciliana made of fresh lemons, in summer.
Brief visit of the ancient village.
Afterwards, the proper off-road excursion will begin; the track runs along the Peloritani Mounts.
Once reached the ridge of the Peloritani, the track will led to "Posto Leone" or "Piano Margi", two equipped areas belonging to the forest department, where a typical lunch, consisting of a selection of Sicilian starters like cheeses, olives, followed by a fine barbecue and Sicilian red wine, will be served.
The tour will proceed North, towards the Peloritani crests, offering several amazing views of both Ionian and Tyrrhenian sides, including the Aeolian Islands. On April and May it will be very easy to see many specimens of different species of pray birds flying north along the ridge of the Peloritani chain, right above our way from the central Africa to the nesting areas in North Europe.
The tour will proceed with the visit of the ancient Sanctuary of Tindari, where the "Black Madonna" is placed, with the chance to visit the archaeological site with the adjoining "Greek-Roman theater"
Transfer back to the hotel at about 7pm.
